Rubber Interlocking Tiles

Interlocking Rubber Tiles are designed for playground and recreational use. The tile are equipped with a built-in alignment foot which allows for precise installation. The locking mechanism runs the entire perimeter to provide a more secure installation and will help minimize any curling or tile separation.

Features:

- Available in varying thicknesses to meet critical fall heights up to 10 feet
- ADA accessible ramps, tiles, and edges available
- Tiles are available in colored standard buffing top and Gezolan EPDM topped tiles. Inquire about color options for a complete list
