

Perfect for:
Daycares, Churches,
Parks School
Playgrounds, and
Fitness Spaces

TOT TURE[®]

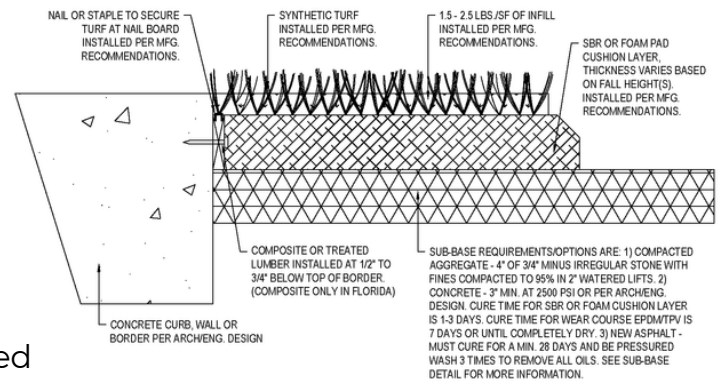

SYNTHETIC TURF

ProPlay Plus 55oz Synthetic Turf

Our ProPlay Plus Turf is an excellent turf product that offers thatch, which provides added body, reducing the amount of infill needed. This surface provides a truly authentic look and feel that resembles a natural lawn. By adding our recycled attenuation layer, we can install a turf surface to meet standards for public play. TotTurf proudly installs systems that allow for all to play.

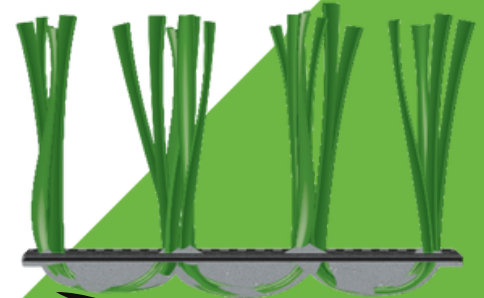

Features

- Real grass look keeps parks and playgrounds visually serene and environmentally pleasing
- Meets critical fall height (CFH) attenuation requirements set forth by ASTM (up to 12')
- Easily accessible for children with all abilities
- Includes SILVERBACK™, a specially manufactured back lining to prevent extensive turf rutting and damage
- System installation includes basic infill but available with an upgrade to EnviroFill™ with Microban to help fight the spread of bacteria

Basic Specifications

- Face Weight: 55 oz.
- Total Weight: 82 oz. / sq yd.
- Pile Height: 1.75 inch
- Color(s): Field/Olive
- Roll Width: 15ft
