

Since our beginnings in 1991, Robertson has become the largest poured in place installer in the US and an industry leader in playful ground covering. Our years of experience enhance our level of service to bring you expert evaluations, compliant installations, preventative and reliable maintenance, in addition to top quality products delivered directly to your location from our centers. Our passion is working with parks, municipalities, schools, and communities to provide safer inclusive surfaces for all to enjoy.

Robertson utilizes a perfected installation technique to prevent premature surface wear and seam separation. Our regional service centers train our direct employees to ensure installations and maintenance work is done to meet your expectations and in a professional manner.

We strive to go "Beyond Compliance". We are active members of IPEMA to ensure that your recreational space meets safety and accessibility standards. Beyond Compliance means we will take every precaution to give you the best surface for your project and strive to not only meet national standards but exceed those standards when possible.

Robertson is the **ONLY** installer of Tot Turf Resilient Poured Rubber Surfacing - the leading rubber surfacing in America, known coast to coast as the frontrunner in innovation, compliance, durability and design capabilities.

Robertson offers budget conscious safety surfacing options no matter your space needs.

If your current space is showing signs of wear or loss of compliance, we provide reliable maintenance and repair services. Routine assessments and repairs can avoid costly renovations and ensure longevity and compliance to ASTM standards.
